PROFILE

Developer with hands-on experience in the development and implementation of scalable web applications, API integration, and systems administration. Proficient in Agile methodologies (Scrum), front-end and back-end development, MySQL database management, version control with Git/Bitbucket, functional testing, and workflow automation. Able to design, implement, and maintain complete modules, optimizing processes, ensuring quality, and enhancing the end-user experience.

WORK EXPERIENCE

Professional Internship – Clever Cloud

August 2025 - January 2026

Software Developer

Developed and implemented modules and workflows within the Clever Cloud administrative panel, using Agile methodologies (Scrum) and tools such as Vue.js, PHP, Metronic 7, MySQL, and Visual Studio. Participated in all phases of development, including consuming and creating APIs.

Summer Research Project

August 2023 - October 2023

Research Intern

Collaborated in the development of a project focused on an application that modeled a robot's movement through programming, applying concepts of logic, control systems, and algorithms.

EDUCATION

Instituto Tecnológico Superior de Salvatierra (ITESS)

2021 - 2026

Computer Systems Engineer

Centro de Bachillerato Tecnológico Industrial y de Servicios Num. 255

2017 - 2021

Programming Technician

CERTIFICATIONS AND SKILLS

2023 **Information Technology Support**
Coursera/google

2025 **Aws Developer**
Skill builder AWS

2023 **Project management**
Coursera/google

2025 **Java Developer** by Jet
Brains Academy

2024 **Data analyst**
Coursera/google
